PROFESSIONAL SUMMARY

- Full-stack developer with 1+ year of independent freelance experience and a solid foundation in modern web development. Specialized in React frontend development, PHP/MySQL backend systems, and REST API design. Proven ability to deliver production-ready applications from concept to deployment (Vercel, HelioHost). Seeking a remote junior developer role to grow professionally while contributing meaningful work to a collaborative team.

PROFESSIONAL EXPERIENCE

Freelance Web Developer (Full Stack) • *June 2025 – Present*

- Independently designed and developed multiple web applications for local clients in Kabankalan City
- Built and deployed 3 production-ready websites using React, Next.js, TypeScript, Tailwind CSS, and Vite on Vercel
- Managed full development lifecycle: requirements gathering, design, implementation, testing, and deployment
- Clients: Kape Al Vista café, Arches Dental Clinic, Book Author portfolio (all live and performing well)

Web Developer & Technical Support Intern • *January – May 2025*

- Participated in 4-month professional web development project, building React.js components and improving frontend architecture
- Provided technical support: troubleshooting, hardware configuration, government system installation (payroll & MIS)
- Gained hands-on experience with professional development workflows and technical support best practices

Lead Full Stack Developer – Capstone Project (GymSync) • *August – December 2024*

- Architected and led development of a complete gym management system for gym owners, members, and coaches
- Designed PHP-MySQL backend with REST API hosted on HelioHost; built Flutter mobile app for cross-platform member access
- Implemented real-time workout tracking, performance monitoring, and member management in a centralized platform
- Managed project scope, timelines, and technical decision-making; demonstrated full-stack capability end-to-end

TECHNICAL SKILLS

Frontend Development: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Framer Motion, Vite

Backend Development: PHP, Node.js (learning), MySQL, REST API design & implementation, HelioHost deployment

Mobile Development: Flutter (Dart), cross-platform development

Tools & Platforms: Git, Vercel, HelioHost, VS Code, npm/yarn, browser DevTools

Methodologies: Agile development practices, responsive design, component-based architecture

KEY PROJECTS

Kape Al Vista Web Page *[React, JavaScript, JSX, CSS3, HTML5, Vite, Vercel]*

- Full-featured café website with menu system, responsive design, and live deployment

Arches Dental Clinic Landing Page *[React, JavaScript, HTML5, CSS3, Tailwind CSS, Vite]*

- Production-ready multi-section landing page with appointment section and professional branding

Book Author Landing Page *[Next.js, TypeScript, Tailwind CSS, Framer Motion, Vite]*

- Custom-designed portfolio with advanced micro-interactions, editorial typography, and scroll animations

GymSync (Capstone) *[React/Flutter frontend, PHP-MySQL backend, REST API, HelioHost]*

- Full-stack gym management system with real-time workout tracking and member management

EDUCATION

Bachelor of Science in Information Technology • June 2025
Major in Web and Mobile Application Development • University of St. La Salle
Dean's List Academic Achievement Award
